AVAILABILITY: Immediate | Mode: Remote | Nearshore | On-site

PROFESSIONAL PROFILE

Software Engineer with over 5 years of experience in enterprise software development and scalable architectures. S

TECHNICAL SKILLS

- Backend: Java (Expert), Spring Boot (Microservices), Spring MVC, Spring Security, Spring Data JPA, RESTful API
- Languages: Python 3.12, PHP, JavaScript (ES6+), SQL, HTML/CSS
- Databases: MySQL, PostgreSQL, Oracle (Concepts), Modeling and Normalization
- Cloud and DevOps: Docker, Docker Compose, AWS (EC2, S3), Basic CI/CD
- Tools: Git/GitHub, IntelliJ IDEA, Eclipse, VS Code, Postman, Swagger/OpenAPI, Maven, Gradle
- Methodologies: Agile, Scrum, Collaborative Work

PERSONAL PROJECTS (GITHUB)

Repository: <https://github.com/raulrodriguezmesia-blip>

1. Municipal System (Featured Project)

- Employee management system with focus on security and operational continuity
- Access control with JWT/OAuth 2.0 authentication
- Backup and contingency system to ensure service availability
- Password encryption (SHA-256 / BCrypt) following best practices
- 8 active commits, technical documentation included
- Technologies: Java, JDBC, MySQL, Eclipse IDE

2. Spring Boot REST API (Microservices)

- Scalable REST APIs with Spring Boot applying microservice principles
- RESTful controllers with data validation and exception handling
- Dependency management with Maven, Swagger/OpenAPI documentation
- Technologies: Java, Spring Boot, Maven, Swagger, RESTful

3. Hardware Store JPA-Hibernate

- Web inventory management application with JPA-Hibernate persistence
- Optimized queries to MySQL databases, performance-focused approach
- Technologies: Java, JPA, Hibernate, MySQL

PROFESSIONAL EXPERIENCE

AREQUIPA EXPRESO MARVISUR EIRL | PERU

Operational and Logistics Support (Technical Focus) | 2020 - 2025

- Maintenance and evolution of MARVICOM enterprise system (Java/MySQL), resolving critical incidents with collaboration
- Analysis of logistics flows and data management through customs/financial systems
- Operational process optimization through computational logic and continuous improvement
- Support for 100+ internal users, working in agile multidisciplinary teams
- Direct involvement with business needs and value delivery

CJ CONEXIONES C.A. (MOVISTAR AGENT) | VENEZUELA

IT Support Assistant | 2016

- Hardware technical support and sales system administration
- Configuration and maintenance of network equipment, customer-focused approach

CENTRO DE COORDINACIÓN POLICIAL No. 03 POLIGUARICO | VENEZUELA

Software Developer | 2015

- Inventory control system with Java and MySQL, delivering efficient solutions
- Record automation, reducing response times by 30%
- SQL query optimization for large data volumes
- Collaborative work and knowledge sharing with the team

INFOCENTRO (ADOLFO ANTONIO MACHADO LIBRARY) | VENEZUELA

Web Developer | 2014

- Web modules with PHP, JavaScript and MySQL, digitization of physical records
- Creative contributions to improve management processes

ACADEMIC TRAINING

Los Llanos University Institute of Technology (IUTLL) | Venezuela

Software Engineer | 2017

COMPLEMENTARY TRAINING

- Specialization in Java Spring Boot: Microservices and RESTful APIs
- Technical Update: Python 3.12 (56h)
- Advanced Java Programming (56h)
- Organizer 8th National Congress of Free Software (CNSL) - Technical community development
- Socio-Technological Project | Infocentro (250h) - Social commitment

CERTIFICATIONS (IN PROGRESS)

- Oracle Certified Associate, Java SE

- AWS Certified Cloud Practitioner

LANGUAGES

- Spanish: Native
- English: Intermediate (Technical reading)

OTHER

- Availability for remote work (aligned with environmental commitment to reduce travel)
- Experience in nearshore modality (Peru-Spain)
- Commitment to diversity and inclusion in the workplace
